**Red Lake, ON Canada**

**Nungesser Lake Lodge** is a clean, comfortable, camp offering modern housekeeping cabins in a relaxed and peaceful atmosphere. Our personalized service and great hospitality makes Nungesser Lake Lodge the place you will want to visit year after year.

### **Nungesser Lake Lodge**

You will be greeted at our highway landing by our professional and courteous staff and we will load your gear into our river boat for a short cruise to our second river landing. You'll then enjoy the adventure of riding through the Canadian bush as we take you on a trail ride to the lodge.

### **Accommodations**

We are pleased to provide you with pillows, sheets, blankets, dishes, cooking utensils, fresh towels and separate bathroom with flush toilet, and stand-up shower. Cabins are heated by propane furnace, have hot and cold running water, fridge, stove, microwave, coffee maker, and supplied with electricity 24 hours per day. Outdoor propane grill and cooker.

### **Nungesser Lake/Fishing**

Nungesser Lake is a dark water lake, the headwater of the entire Gullrock, Keg, Red, Little Vermilion, Nungesser Lake chain. Nungesser is about 18.5 miles long. The lake has approx. 30,000 acres of fish holding structure.

Nungesser has rock shorelines, sand bars, mid lake reefs, depths of over 50 feet deep water access, long shallow bays for forage production. 24 rivers and feeder creeks provide excellent spawning areas for Walleye, Pike, Perch and Whitefish and the forage that they depend on to thrive.

We are a trophy catch and release lodge. Therefore any walleye over 18" and any pike over 27.5" must be released upon catch.

*(We clean, filet and wrap your catch and store the fish in our freezer until departure.)*

### **Recreation**

Family activities on our grounds and our main lodge offered in a safe recreation area - swimming, waterslide, paddle boat, horseshoe pits, campfire, pool table, games, books, puzzles and satellite TV.

Our percentage of repeat guests runs very high and this is the biggest endorsement we can pass on to you. So, if fishing fun and adventure is what you're searching for, give us a try, you won't be disappointed.

### **Bear Hunting**

We offer a highly successful Black Bear hunt. Rotating the use of our Bear Management Areas and limiting the number of hunters contributes to our success rate. The sites are properly baited well in advance of the hunters' arrival. We pride ourselves on doing everything we can to ensure our hunters have a hunt they'll never forget.
